

REFRIGERATION TECHNICIAN

We are looking for an experienced and fully qualified Refrigeration Service Technician to join our busy Service Department. The successful applicant will enjoy working across a variety of commercial and residential air conditioning and refrigeration equipment including: cool rooms, freezer rooms, chillers, package units, plant rooms, BMS systems, split systems, ducted reverse cycle systems.

What We're Looking For:

- Proven commercial and residential air conditioning and refrigeration experience and knowledge.
- Hold all applicable licenses and registrations.
- Take pride in your work.
- Show a commitment to excellence in customer service.
- Be very well organised and have excellent communication skills.
- Enjoy working within a supportive and cohesive team.

On Offer

- Generous remuneration package, including vehicle, phone, and uniform
- Excellent working conditions, inclusive culture & work/life balance
- Respectful, safe, and cooperative working environment
- Overtime hours available
